	at								
Applications detail:		Application	Application Dilution						
		WB				1:1000-200			
		The optimal	The optimal dilutions should be determined by the end user						
Conjugate:									
UnConjugate									
Form:									
Liquid									
sensitivity									
Endogenous									
Purification:									
Affinity-chromato	graphy								
Specificity:									
Antibody is produ	ced by immuniz	ing animals with A sy	nthesized peption	de derived	from humai	n KLF10			
Storage buff	er and cond	ditions:							
Antibody store in	10 mM PBS, 0.5	mg/ml BSA, 50% glyc	erol (buffer) .						
Shipped at 4°C. S	tore at-20°C or	-80°C.							
Products are valid	d for one natura	l year of receipt.Avoid	d repeated freez	e / thaw c	ycles.				
Tissue speci	ficity:								
Subcellular I	ocation:								
Nucleus.									
Function:									

Introduction: WB: Western Blot IP: Immunoprecipitation IHC: Immunohistochemistry ChIP: Chromatin Immunoprecipitation ICC/IF: Immunocytochemistry/
Immunofluorescence F: Flow Cytometry

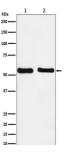

Cross Reactivity: H: human M: mouse R: rat Hm: hamster Mk: monkey Vir: virus MI: mink C: chicken Dm D. melanogaster X: Xenopus Z: zebrafish B: bovine Dg: dog Pg: pig Hr: horse

Transcriptional repressor which binds to the consensus sequence 5'-GGTGTG-3'. Plays a role in the regulation of the circadian clock, binds to the GC box sequence in the promoter of the core clock component ARTNL/BMAL1 and represses its transcriptional activity. Regulates the circadian expression of genes involved in lipogenesis, gluconeogenesis, and glycolysis in the liver. Represses the expression of PCK2, a rate-limiting step enzyme of gluconeogenesis (By similarity). May play a role in the cell cycle regulation..

Validation Data:

KLF10 Rabbit mAb [0nVR] Images

Western blot(SDS PAGE) analysis of extracts from (1) HepG2 cell lysate; (2) NIH/3T3 cell lysate. Using KLF10 Rabbit mAb [0nVR]at dilution of 1:1000 incubated at $4^{\circ}\mathbb{C}$ over night.
